Hi There! I'm Matteo, currently working for **DeltaTre** in Turin as a **Web Developer**.

The programming languages and IT topics I'm mostly working on are:

C#, Javascript & Typescript, React, Sql e No-Sql Database, Servizi Orientati al Cloud (AWS e Azure Platforms).

As a preference, in the future I'd like to master 2-3 main programming langs. While learning fundamentals IT topics (ex: Docker, Cloud Vendor usage). The only requirement: don't make me do too much CSS!

I've graduated from **Fondazione ITS** as a Software Developer with a Diploma of Higher Education. Previously I graduated from Turin University with a master's degree in **Art History**. During my studies I worked as a **freelancer translator** on the platform Upwork. My best **traits & skills** are synthesis, precision and work organization. I'm independent and I'm really resolute. All those soft skills are required at my job at DeltaTre.

My main **interests** are the IT field (especially web programming) and the World Wide Web, videogames, literature, contemporary art (with a focus on Latin America production). Lastly, I'm a football fan!

MAIN WORK EXPERIENCES

➤ **Web Developer at DeltaTre**

08/2020 - current

I work with: C#, .NET Framework, .NET Core, Javascript, Typescript & React, CSS, Less, Sass, SQL Server, MongoDB

➤
