Date of Birth	21/10/1992
Address	corso Casale 210, Torino - 10132

I'm an **Art History** Graduate and, during my studies, I worked as a **freelancer** on upwork.com. Currently I continue my freelancer activity while I search working opportunities to develop my career. I'm also studying the fundamental technologies (HTML, CSS, Javascript e JQuery, RubyonRails) to become a full-stack developer.

My best **personal traits & skills** surely are the ability to synthesize, the analytical and interpretative ability. Other than that, I master explanation skills of themes and concepts (improved during my university period) and I've also got great organization skills.

My main **interests** are contemporary art (with a focus on Latin America production), the Web as a whole (as a cultural world with its rules and characteristics), the IT field (especially web programming), videogames and literature.
